

### Operation Cowichan Schools

Four local Cowichan Schools; Ladysmith Secondary, Penelakut Elementary, Chemainus Secondary and Duncan Christian School are keen to start the Salish Sea Stones Project. This is an art project that is centred on helping local kids and youth in need within our community. In order for each school to get the project up and running they require a \$2000 equipment/materials fund. This is a one off cost that the students need in order to get the project up and running. After that the project will be self sustaining.

Ladysmith Secondary would like to start the project as part of their Land and Language program in early January 2023. Penelakut Elementary would also like to begin in early 2023, with the other schools following shortly after. The basic materials required will have to be purchased by mid December 2022, to have things ready to go for the schools in January. The schools have a very limited budget for this and desperately need your help.

If possible, please make a donation so that these local schools can start to help other local kids in need.

Please help us help kids in need.
