

Dear Councillors,

We were very disappointed and upset to hear that there will be a motion brought forward by an elected council member to provide a 24 month amnesty of the Urban Containment Boundary to allow property owners to proceed with their development options. This motions should not be passed for the following reasons:

1. If passed it would it would totally disregard the democratic vote by a 5:1 margin to adopt the OCP, July 2022 by the previous councillors. This would be completely anti democratic.
2. If passed it would ignore the publics overwhelming support of the OCP.
3. If passed it would destroy and remove the most important element of the 2022 Official Community Plan and its Urban Containment Boundary
4. If passed it would be an insult to the Municipality's professional staff.
5. If passed it would be unfair as it grants special privileges to developers to circumvent the law.
6. If passed it would undermine the power and authority required by law to adopt new OCPs

This motion should not be passed and dismissed unanimously.

Sincerely,

[REDACTED]
