Subject: UCP

I would like to voice my strong objection to changes to the UCP. Given Mr. Findlay's profession I am amazed that he can present such a motion to council. The ethical thing for him to do is to recuse himself from voting on anything pertaining to UCP amendments and development of projects such as that proposed by Scalia. Surely there is some sort of code or guidelines governing members of council. I would consider any change to the lawful passage of the UCP to be undemocratic and against the will of the majority of the people the council represents. I also think it a slap in the face of the staff who drew up the plan. I would be pleased to receive North Cowichans code of conduct re members of council. Thank you [REDACTED] FIPPA s 22(1)
