

## Overview of Hospital Off-Site Servicing Projects

As approximately shown below, the infrastructure upgrades required to service the new Cowichan Regional Hospital include:

- Upgrades to portions of Bell McKinnon Road from the Hospital site to Herd Road
- Upgrades to portions of Herd Road from Bell McKinnon Road to the Trans-Canada Highway
- Intersection upgrades at the intersection of Herd Road and Bell McKinnon Road (roundabout) and at Herd Road and the Trans-Canada Highway
- Construction of two-thirds of two new roads along the north and south boundaries of the Hospital site
- Installation of a sanitary trunk main along Bell McKinnon Road from Drinkwater Road to Herd Road
- Upgrades to the water main along Bell McKinnon Road from Drinkwater Road to Herd Road and Herd Road from Bell McKinnon Road to the Trans-Canada Highway.
