LOT 1, SECTION 3, RANGE 10, CHEMANIUS DISTRICT, PLAN 8741

SEE DETAIL
DRAWINGS
FOR SIZE AND
DESIGN OF TOWER

- Proposed steel slim line self support tower with lightning protection system. Paint colour subject to navy canada requirements. Antenna number and locations to be determined.
- Foundation design pending soil report.
- Proposed prefabricated galvanized steel radio equipment shelters on cast in place reinforced concrete slab (3.0m x 3.0m).
- Utility connection and routing to be determined by qualified personnel in consultation with local authority.
- Remove existing topsoil. Proof roll subgrade and place 300 mm granular across compound area. Finished gravel surface to be min. 150 mm above existing grade and sloped away from shelter at min. 1% on all sides to provide adequate drainage.
- Proposed 2.4 m high board fence surrounding compound.
- Proposed wood retaining wall/barrier of sufficient height to prevent gravel from washing out towards the woodlands.
