Date: February 6, 2022
Name of Applicant: Rodney Sjolie On behalf of: Myself
Address: [REDACTED]
Email: [REDACTED] FIPPA s. 22(1) Phone: [REDACTED] FIPPA s. 22(1)

I/We request to appear electronically as a delegation before:

☒ Council ☐ Committee of the Whole ☐ Forestry Advisory Committee

Please provide a brief overview of your presentation, below, and attach a one-page (maximum) outline of your presentation.
Please be specific.

I would like to appear before council to make a presentation in response to North Cowichan's Engineering Departments position in relation to Creek Erosion and habitat destruction which has caused my bank in the rear of my property next to the creek to partially collapse. North Cowichan presently diverts stormwater from over 150+ properties and parts of at least 6 roadways into this creek. I believe that the creek has now exceeded its capacity to handle this stormwater. My presentation would consist of a slide presentation which I believe will vividly demonstrate to council that this is a very serious situation and with the increasing severity of atmospheric rivers and proposed future development in this drainage area, will lead to a more severe outcome.

The purpose will be to convince Council that this situation needs further review.

The presentation will consist of a slide presentation showing the drainage area of concern, erosion and habitat destruction, the flow of water during the last atmospheric river in January of 2022 along with weather data for this winter and excerpts from North Cowichan's Storm Water Management plan along with excerpts from an article written by Young Anderson Law Firm titled "THE INS AND OUTS OF DRAINAGE" dated Nov 23, 2018.
